BORNOF ALGER'S BRAIN OGDEN NEWS.

Scheme For Disposition of Spanish Prisoners at Santiago.

AND HE IS PROUD OF IT

ONE BRILLIANT SPOT IN HIS WAR ADMINISTRATION.

He Figured It All Out Himself and Sprung It Upon the President;

Sprung It Upon the President;
Then Made Arrangements For the
Transportation Back to Spain of
the Captured Men.

Washington, July 23.—Secretary Alger has always felt a pardonable pride
in the success with which the war department met the tremendous problem
thrust upon it by the necessity with
which it was suddenly confronted during the war with Spain, of suddenly
disposing of thousands of Spanish prisoners captured in Samilago province.
The history of that time has not been
fully told and it remained for Secretary
Alger today to supply the need by the
following bit of reminiscence:
"On the night of July 5, 1898, the president asked me what in my judgment,
we should do with the Spanish prisoners of Santiago after their capture. The
matter had received very much thought
from the president and myself, but no
definite conclusion had been reached. I
then suggested to the president that
Galveston, Tex, would be the best place
in the United States, in my judgment,
where we could send them, that it was
away from the coast line travel; a good
harbor; that there would be plenty of
room for camping them, and that its
climate would be as mearly as I
can remember, about 2 o'clock in the
morning, and being too tired to sleep, I
lay awake for a while, but finally dozed
off. I tawke at daybreak and my first
thought was concerning the Spanish
prisoners, and the new idea came to my
head, "Why not send them back to
Spain"

"This thought so deeply impressed me
that I formulated my plan and on the
morning of July 19, instead of going to
the desarriment direct, I went to the
day and being to the doctor
in the first sunday in August."

The study of the travel of the congregation had left the
church it was found that but two memthers of the board and C. E. Smith, and for the
season the meeting was postroned until
1515 p. m. At the appointed boar of the
few, Dr. Wishard appeared. The latter
was called in as moderator, and called
the meeting to a the two foreins of the church appeared
to read the following:
The Honorable

many constant them back to Spain."

This thought so deeply impressed me that I formulated my plan and on the morning of July 10, instead of going to the department direct, I went to the White House and laid the new plan before the president, saying that it would be an unprecedented procedure and a most gracious act; that to transport the prisoners to Galvesion would have to clothe, shelter, guard and feed them there, and no doubt have to ships them back to Spain in the end. I also stated that I believed it would be a great inducement to the Spaniards to surrender, which General Shafter afterwards assured me was the effect. The wards assured me was the effect. The prisident readily approved the plan and on the same day I cabled General Shafter as follows:

"War Department, July 10, 1885. General Shafter, Playa De Este, Santiago, Cuba.—Should the Spaniards surrender unconditionally and wish to return to Spain, they will be sent back."

Wright Again Arrested.

Shafter as follows:

"War Department, July 10, 1898. General Shafter, Playa Del Este, Santiago, Cuba.—Should the Spaniards surrender unconditionally and wish to return to Spain, they will be sent back direct at the expense of the United States Government.

"R. A. ALGER.

Offer Made to Spaniards.

Offer Made to Spaniards.

"Upon receiving this, on the 11th of July, General Shafter sent the following communication to the commander in chief of the Spaniah forces." Headquarters of Fifth Army Corps, Camp Near Santiago de Cuba, July II, 1998.—Sir: With the largely increased forces which have come to me and the fact that I have the line of retreat securely in my hands, the time seems fitting that I should again demand of your excellency the surrender of Santiago and of your excellency's army, I am authorized to state that, should your excellency so desire, the government of the United States will transment of the United States will trans-

re to consirm that which i said in my gramer communication, also to advise ou that I have communicated your reposition to the general in chef. Re-crating my sentiments, I am your re-sectful servant, JOSE TORAL. "Commander in Chief, Fourth Corps, and Military Governor of Santlago,"

Plan Was Carried Out.

Timmediately upon the surrender, steps were taken to carry out the piedges of the United States government to ship the Spaniment to the prisoners to Spain, with the result that eight of the ocean transportation companies submitted a combined bid, which was for officers \$\frac{1}{2}\$ and for ealisted men \$\frac{1}{2}\$ per capita, steamers to be dispatched from Santiago de Cuba within torty-shight hours of their reported arrival, or demurrage to be paid at the rate of \$\frac{1}{2}\$ cents per capita per day, same demurrage to be paid fit steamers be detained at place of debarkation by quarantine or other cause. The Spanish transportation of all the prisoners \$\frac{1}{2}\$ the rations for the prisoners were inspected by a United States government efficial, and this government paid for the transportation of all the prisoners \$\frac{1}{2}\$ the rations for the prisoners were inspected by a United States government official, and this government paid for the transportation of all the prisoners \$\frac{1}{2}\$ the companies under their hid would have cost the government that the number of delegates had reached the president and to make a length of the United States, and probably as much more in demurrage.

"Some days after this contract was awarded the president and to make a length of the prisoners \$\frac{1}{2}\$ the rate of the carried by the other companies under their hid would have cost the government that the number of delegates had reached the president and to make a length of the prisoners and the president and to make a length of the prisoners and the president and to make a length of the prisoners are the delegates had reached the president and to the content on the prisoners and the president and to the prisoners are the pres

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, meincholy, headnehe, back, fainting and dizzy spells. This miracle-working medicine is a godisend to weak, sickly, run-down people. Every bottle guaranteed. Only 50 cents. Sold by Z. C. M. I., Drugsits.
